

Let's Learn Backpacks

Summary

Let's Learn Backpacks for Kindergarten students provide the structure both teachers and caregivers need to support students in current learning environments, bridging instruction from home to school. This resource can provide the foundation for a successful year, no matter how or where students are learning.

Parent/Caregiver Connections

The *Let's Learn Backpacks* series fully supports caregivers with easy-to-follow directions and examples, so adults can guide and assist students as they work. *Let's Learn Backpacks* thoughtfully show how caregivers can build academic skills through everyday activities. The parent tip card is available in multiple languages to offer quick suggestions for reading together and talking about the text. Additional recommendations to help caregivers meet the needs of students with best practices, ideas for use, and answer keys are provided digitally. Additionally, concise, parent-facing webinars recorded in English, Spanish, and Creole are available to provide extra support for caregivers.

Each durable *Let's Learn Backpack* includes:

- ***Let's Learn! Activity book*** featuring focused activities for literacy, with additional activities to support content-area literacy in math, science, and social studies as well as critical and creative thinking, mindfulness, health, and the arts.
- **Bilingual Parent Tip Card** includes ideas for turning everyday actions into learning opportunities and practicing important life skills offered in English, Spanish, and Creole.
- **Six, high-interest, nonfiction books** representing a variety of topics for shared and independent reading.
- **eBook library** access for 12 months that includes readers spanning a variety of grade levels and topics to help overcome learning gaps.
- **Letter to parents** from explaining the mission and goals of the resource.

Let's Learn Backpacks-Kindergarten
